Notes to Foreign Contribution Regulation Act ('FCRA') Statements for the year ended 31 March 2020

1 A) NATURE OF OPERATIONS

Impact Foundation (India) ('the Company') is a Non-Governmental Organization, which was incorporated under section 25 of the Companies Act, 1956 (now section 8 of the Companies Act, 2013) on January 25, 2001. It is a public company limited by guarantee and not having share capital. It is also registered under section 12A of the Income Tax Act, 1961 vide registration no. INS/35552.

It works:

- To create awareness on various social, moral and economic issues affecting the country and to direct this awareness to developing innovative means of generating resources - financial, material and professional - and channelize these resources to people and projects in field including Nonprofit organizations and social businesses in order to accelerate poverty alleviation and transform
- To encourage and support research and grass root initiative for the development and upliftment of disadvantaged group.
- To support the initiative of individual, group or organization in promoting both formal and informal education for children and adults.

B) BASIS OF PREPARATION

The FCRA Balance Sheet, FCRA Income and Expenditure Account and FCRA Receipts and Payments Account – hereinafter referred collectively as FCRA Statements, have been extracted and compiled by Impact Foundation (India) ('the Company') from its books of account and other relevant records pertaining to FCRA.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

2.1 USE OF ESTIMATES

The preparation of financial statements in conformity with Indian GAAP requires the management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities at the end of the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

2.2 PROPERTY, PLANT AND EQUIPMENT

Property, Plant and Equipment, assets under development are stated at cost less accumulated depreciation and accumulated impairment losses, if any. The Cost comprises the purchase price and any directly attributable cost of bringing the asset to its working condition for its intended use. Any trade discounts and rebates are deducted in arriving at the purchase price. Such cost includes the cost of replacing part of the plant and equipment if it meets the recognition criteria, i.e., the cost can be measured reliably and future economic benefits pertaining to the expenditure are expected to flow to the organization. All other repair and maintenance costs are recognised in income and expenditure as incurred.

Gains or losses arising from derecognition of property, plant and equipment are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the FCRA Income and Expenditure Account when the asset is derecognized.

Notes to financial statements for the year ended 31 March 2019

2.6 INVESTMENTS

a. Recognition & Measurement:

On initial recognition, all investments are measured at cost. The cost comprises purchase price and directly attributable acquisition charges such as brokerage, fees and duties. Current Investments are carried in the financial statements at Lower of Cost & Fair Value determined on individual investment basis. Long term investments are carried at cost. However, a provision for diminution in value is made, to recognise a decline other than temporary in the value of investments. On realisation of investment, the difference between its carrying amount & net disposal proceeds is charged or credited to the FCRA Income and Expenditure Account.

b. Presentation & Disclosure:

Investments, which are readily realisable and intended to be held for not more than one year from balance sheet date, are classified as current investments. All other investments are classified as non-current investments.

2.7 FOREIGN CURRENCY TRANSLATION

a. Initial Recognition

Foreign currency transactions are recorded in Rupees by applying to the foreign currency amount the exchange rate between the Indian Rupee and foreign currency at the date of transaction.

b. Conversion

Foreign currency monetary items are retranslated using foreign exchange rate prevailing at the reporting date. Non-monetary items, which are carried in terms of historical cost denominated in a foreign currency, are reported using the exchange rate at the date of transaction.

c. Exchange Differences

Exchange differences arising on the settlement of monetary items or on reporting company's monetary items at rates different from those at which they were initially recorded during the year, or reported in previous financial statements are recognised as income or as expenses in the year in which they arise.

2.8 RETIREMENT & OTHER EMPLOYEE BENEFITS

a. Defined Contribution Plan

Retirement benefit in the form of provident fund is a defined contribution scheme and the contributions are charged to the FCRA Income and Expenditure Account for the year when the contributions in the respective funds are due. The Company recognized contribution payable to provident fund scheme as expenditure when an employee renders service. There are no other obligations other than the contribution payable by the Foundation. If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognized as an asset to the extent that the pre payment will lead to, for example, a reduction in future payment or a cash refund.

b. Defined Benefit Plan

- Gratuity liability is a defined benefit obligation and is provided for on the basis of an actuarial valuation based on projected unit credit method made at the end of each financial year.
- ii. Actuarial gains and losses for defined benefit plan is recognized in full in the period in which it occurs in the FCRA Income and Expenditure Account.

2.9 PROVISIONS

A provision is recognized when the Company has a present obligation as a result of past event and; it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation in respect of which a reliable estimate can be made. Provisions are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the balance sheet date. These estimates are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

2.10 INCOME TAXES

Provision for taxation has not been accounted for in the FCRA books of accounts in view of the exemption of income tax availed by the Foundation u/s 11 read with section 2 (15) of the income Tax Act, 1961.

2.11 LEASES

Leases, where the lessor effectively retains substantially all the risks and benefits of ownership of the leased item, are classified as operating leases. Operating lease payments are recognised as an expense in the FCRA Income and Expenditure Account on a straight-line basis over the lease term.

2.12 CONTINGENT LIABILITY

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the FCRA statements.

Notes to the FCRA Statements for the year ended March 31, 2020

24 US AID Reimbursement of Expenses:

Impact Foundation (India) has an agreement with USAID on reimbursement of expenses for an agreed program. During the year, the Company has incurred expenses of Rs. 7,46,16,107 (Previous Year Rs. 4,12,42,468) on reimbursement basis, for USAID supported program against which the company has received Rs. 7,24,89,336 (Previous Year Rs. 3,92,19,343) and amount receivable from USAID on 31 March 2020 is Rs.41,49,893 (Previous Year Rs.20,23,125) which is shown as receivable in the Balance Sheet. These expenses are netted off in the respective expense accounts. The company has adopted an accounting policy of disclosing transactions with USAID on a net basis.

25 Gratuity:

The Company operates a defined benefit plan. Every employee who has completed five years or more of service gets a gratuity on departure at 15 days of last drawn salary for each completed year of service. Liability for benefits is provided on the basis of valuation, as at reporting date, carried out by an independent actuary. The plan is funded with LIC of India by the Company. The actuarial valuation method used by the Independent Actuary for measuring the liability is the Projected Unit Credit Method.

The principal assumptions used in determining gratuity obligation for the Company's plan are as shown below:

	Grati	uity
DADTICINADO	31 March 2020	31 March 2019
PARTICULARS	(Amount in Rs.)	(Amount in Rs.)
Discount Rate	6.80%	7.60%
Salary growth rate	10.00%	10.00%
Employee turnover	10% at all ages	10% at all ages

The estimates of future salary increases, considered in actuarial valuation, take account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

26 Grant Received Towards Intangible Asset

Grants received by the Company related to an amortizable intangible asset is treated as deferred income and recognised in the statement of income and expenditure by allocating it over the useful life of the intangible asset in the proportion in which amortization on that intangible asset is charged. The balance deferred income is shown separately in the balance sheet under other long-term / current liabilities (refer note 5 and 9).

27 Figures for the previous year have been regrouped /reclassified where necessary to conform to current year's classification.

2.3 DEPRECIATION ON PROPERTY, PLANT AND EQUIPMENT (PPE)

Depreciation on PPE is calculated on a Written down value basis on PPE using the rates arrived at based on the useful lives as provided in the Schedule II of the Companies Act, 2013. Assets individually costing less than Rs.5,000 in value are depreciated at 100% in the year of acquisition. The Company has used the following rates to provide depreciation on its property, plant and equipment.

Asset Class	Written Down Value Rates (%)	Useful Life (Years)
Office Equipment	45.07%	5
Computer - End User Devices	63.16%	3
Computer - Server & Networks	39.30%	6
Furniture & Fixtures	25.89%	10

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

2.4 INTANGIBLE ASSETS

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any. Intangible assets are amortized on a written down value basis over the estimated useful economic life which is estimated as 3 years by the management. Intangible assets are assessed for impairment whenever there is an indication that the intangible asset may be impaired.

The amortization period and the amortization method are reviewed at least at each financial year end. If the expected useful life of the asset is significantly different from previous estimates, the amortization period is changed accordingly. If there has been a significant change in the expected pattern of economic benefits from the asset, the amortization method is changed to reflect the changed pattern. Such changes are accounted for in accordance with Accounting Standard 5 Net Profit or Loss for the Period, Prior Period Items and Changes in Accounting Policies.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the FCRA Income and Expenditure Account when the asset is derecognized.

2.5 RECOGNITION OF INCOME

Donations/grants and Sponsorship Fees are recognized on accrual basis upon compliance with the significant conditions, if any, and where it is reasonable to expect ultimate collection. Amounts received with a specific direction from donors that such amounts shall form a part of Corpus of

- the Foundation are credited as Corpus Fund in Balance Sheet. Grant received towards a particular project for more than a financial year is recognized as income only to the extent of cost incurred in that financial year and balance is recorded as liability.
- **b.** Dividend income is recognized when the right to receive the dividend is established.

 Interest income is recognized on a time proportion basis taking into account, the amount
- outstanding and the rate applicable.
